30+ VACANCIES CLOSED FOR THE WORLD'S TOP 100 OUTSOURCING IT COMPANY

Company name: Sigma Software

Industry: Software Development

Location: Kyiv, Ukraine

Company size: 5,000+

ABOUT SIGMA SOFTWARE:

Sigma Software provides top-quality software development solutions and IT consulting to more than 170 customers all over the globe: Volvo, SAS, Oath Inc., Fortum, Checkmarx, Formpipe Software, etc.

CLIENT'S REQUEST

Sigma Software wanted to hire 30+ IT professionals for a company's request, for those people specializing in custom development, graphic design, software testing, and managed services.

Nataliia Kutsir

Senior Recruitment Consultant at StaffingPartner

OUR APPROACH

Collaborating with Sigma Software has been a remarkable experience. We sourced, assessed, and presented candidates to them for various positions across countries such as Ukraine, Poland, and Canada, including Java, Front-End, Full Stack, and Architect roles.

We've adeptly tackled the challenges of finding candidates with experience in the e-commerce landscape for Java positions.

RECRUITER'S COMMENT:

“ I had a fantastic experience working with Sigma Software. The cooperation was seamless, with timely updates and feedback throughout the process. Their efficiency in handling candidates was impressive, making the entire experience fast and smooth. Highly recommended!

CLIENT'S COMMENT:

“ StaffingPartner hired A-list professionals faster than our in-house recruiters ever could. That's truly remarkable. And they had advanced search tools that aren't open to the public.

THE OUTCOME

Sigma Software closed 30+ vacancies quickly and efficiently. StaffingPartner found C-level developers, specialists in Ruby on Rails, Angular, Java, .NET, DevOps specialists, and QA.
