SENIOR/LEAD FRONT-END REACT ENGINEER FOR A TEL-AVIV IT COMPANY

Company name: ThinkUp

Industry: Technology, Information and Internet

Location: Israel, Tel-Aviv

Company size: 50+ employees

ABOUT THINKUP

ThinkUp is a platform that uses AI and other innovative technology to assist startups in building their product-marketing strategy.

This helps businesses save time and money while still getting the best marketing results possible.

CLIENT'S REQUEST

The company needed a **Senior/Lead Front-End (React) Engineer to join their Portugal office**.

They turned to StaffingPartner to help them with the recruitment process based on our expertise in the Portuguese tech market.

Project Account Manager
Veronika Pichko
Recruitment Team Lead at StaffingPartner

OUR APPROACH

We knew that finding such a high-level React expert in Portugal would be difficult. We also knew that even our extensive database might not be enough, and we should take the opportunity to check out the talent in the local marketplace.

After an extensive search, **in just 4 weeks, we found 25 well-skilled React candidates** and presented them to the client. One of them not only had the required hard and soft skills set, but was also a great fit for the company's culture.

RECRUITER'S COMMENT:

> *React is one of the **most requested front-end technologies** nowadays. We knew there would be a lot of competition for the best candidates in the market.*
>
> *But solving complex tasks is our thing, so we were confident we would attract the perfect specialist for the job," said Veronika Pichko, Recruitment Team Lead at StaffingPartner.*

CLIENT'S COMMENT:

> *StaffingPartner works **within an agreed timeline**, which is crucial for planning the future workflow in development teams.*
>
> *They also were very **attentive to details** and took into account all our requirements. Along with ease of communication, our experience of cooperation with StaffingPartner is very positive.*

THE OUTCOME

A few weeks was enough time for the StaffingPartner team to close the position with the proper candidate.

We are proud that with our help, ThinkUp got one of one of Portugal's top Senior React engineers to join their team.
