3 TOP C++ IT SPECIALISTS HIRED FOR A LEADING ONLINE GAMEDEV MMOC COMPANY

Company name: Wargaming

Industry: Game Development

Location: Nicosia, Cyprus

Company size: 5000+ people

ABOUT WARGAMING:

Wargaming is an award-winning online game developer and publisher. One of the free-to-play MMO market leaders, the company delivers authentic gaming experiences and services across PC, console, and mobile platforms.

CLIENT'S REQUEST

The most crucial client request was for candidates with C-level experience in Unreal Engine and Multiplayer Game Development to work from the Kyiv office.

OUR APPROACH

We analyzed the market and looked for donor companies that already employed the specialists we needed. The candidates were told about the game's scale and explained the importance of working from the office — a complex project, interaction with the team, and high-quality onboarding.

They also discussed the opportunities for development in the companies and emphasized the excellent social package.

RECRUITER'S COMMENT

Viktoria Korol

Senior Recruitment Lead at StaffingPartner

“ *It's fascinating to work with gaming companies, as candidates are usually very interested in games. And we succeeded! Our cooperation with Wargaming was very productive because we understood the profiles they needed and quickly showed the result.*

CLIENT'S COMMENT

Anna Ponomarenko

Recruitment Lead at Wargaming

“ *We saw StaffingPartner among the first ones with a 5-star rating. We have read some of the reviews, visited their website, and decided to try their services. StaffingPartner managed to close hard-to-fill roles very fast. The workflow was very smooth. They are true professionals. Everything was perfect!*

THE OUTCOME

The client left a lot of positive feedback and was most impressed with the speed of recruiting unique candidates, the professionalism of the recruiters, and the cooperation with us. Our team successfully hired 3 high-level C++ specialists for Wargaming.
